Letter No. A2. P.R. 326/53-4 d 22-10-53 from the chairman, Bangalore Water Board re water supply to Sankenahalli extension

1. submitted for perusal. ~~It is stated~~ Before the question is ~~considered~~ considered, the following particulars are required and if approved, this will be called for:—

(1) the original sanctioned estimate in which a provision of Rs 50,000 is said to have been made. This is necessary for scrutiny of the estimate now received.

(2) the total cost of the scheme, as per sanctioned estimate; the amount so far realised from sale of sites and the amount expected to be realised; the no: of sites sold;

(3) the actual cost of the work for the feeder mains and whether the cost of feeder mains is also being included in all the estimates, in addition to the provision made for distribution mains in layouts.

2. A draft D.O. letter is put up to get these details for orders.

18/3/54.

11) a. As regards the proposal in para 6 of the note viz., whether the cost of feeder mains with extra charges like establishment charges and E.T.P. on the work is not a legitimate charge on the funds of the Water Supply Department, it is to be mentioned that at the meeting held on 23rd December 1953 at the office of the City Improvement Trust Board, Bangalore, it was agreed that applying the analogy of the Corporation, the cost of all works executed within the Trust Board layouts, the feeder mains from the storage Reservoir to and within the layouts is to be paid for by the Trust Board.

12) Therefore the cost of feeder main with extra charges like Establishment and T.P. charges is a legitimate charge on the funds of the City Improvement Trust Board, Bangalore.

MG.1/.16:3.

Reminder 8 22-3-54
from the Chairman
B.T.B.

13) Submitted with a note :-

The cost of forming the layout at Sunkenahalli is reported to be Rs 2, 47, 400/- inclusive of the provision of Rs 50,000 for water supply work in the layout as pitioned previously. The cost of water supply work, as also of feeder mains is estimated at Rs 80, 600/-. Thus the total cost of the layout amounts to Rs 2,78,000 (Rs 2, 47, 400 cost of original estimate + Rs 30, 600 excess now involved for water supply work). The total realisation from sale of sites is expected to be Rs 2, 47, 185-0-0. If the estimate for Rs 80, 600 ~~is effected~~ for water supply work is approved as prepared now, ~~the loss of Rs~~ this will result in a loss of Rs 30, 815 on account of the formation of this layout.

14) The estimate for Rs 80, 600 for water supply work now received includes cost of feeder mains The Board is not expected to provide for feeder mains its duty is to provide for distribution mains in the layouts formed by the Board. on this basis only, all layouts of the Board are formed. The cost of feeder mains has to be provided by the corporation, if the layouts are within the corporation limits. otherwise, the Water supply dept has to meet the cost of feeder mains. It is not known why the Trust Board has

agreed to meet the cost of feeder mains also, as noted by the chief Engineer in para 11 above. The chairman ought not to have committed the Board on the question of meeting the cost of feeder mains before he obtained final orders of govt when all the estimates of all the layouts have to be revised if this decision is made applicable in all cases.

15) As results of sunken well extensions are put to much inconvenience for want of water in the layout, the estimate for Rs 80,600 was received from the chairman may be sanctioned subject to the observations of the chief Engineer under para 10 above, the cost being debited to the sanctioned scheme of the layout. Directions may be issued to the chairman to see that work is taken up & completed as soon as possible & that work should be got done at the lowest tender rates after calling for tenders. He may also be requested to send a revised estimate for the layout based on the cost of water supply, with information as to the source from which the excess cost involved will be met and whether it is possible to take such action as is necessary to see that the scheme results in no loss to govt. The question of debiting the cost of

7361/ml Water supply to Sunkenahalli extension

feeder mains etc to the Trust Board Schemes is being considered separately, as the chairman has sent a separate report. For orders.

7913/ml

— Ref frames 9 to 12 of the notes.

No. 22/3

Sgs 22/3

16) Now the point for consideration is whether the estimate for Rs. 80,600/- should be sanctioned. In the original sanctioned estimate, Rs 50,000 had been provided for water supply the estimated cost of the Scheme was Rs 2,47,400/- Of the provision for water-supply has to be enhanced to Rs 80,600/- then the excess cost will be Rs 30,600/- This amount, the TMB should recover from the Sale of Sites Of all the Sites in the layouts are disposed off, then and the amount realised is Rs 2,47,400/- (i.e the Cost of the layout), then Rs 30,600/- will be a loss to the BB and this loss should be avoided. The Chairman has to be enquired whether there would

any loss ~~in~~ in the Scheme, by spending Rs 30,600/- over & above the amount provided for water-supply.

17) But by ordering the Chairman now to get further particulars, there will be delay and the people in Sankarakalli will suffer most due to want of drinking water. Therefore the best course open to Govt at this stage is to instruct the Chairman to carry out the work to the extent of Rs 50,000/- ~~and~~ immediately & Provide water to those areas where houses have already come up. Even to carry out work to the extent of Rs 50,000, there must be a detailed estimate sanctioned by Govt. Therefore, the present estimate for Rs 80,600/- may be sanctioned and the Chairman instructed to limit the expenditure to Rs 50,000/- in the first instance and that the question of spending Rs 30,600/- may be taken up later after

7361 Water supply works — 9 Gundenahalli extension

No. H.P.R 326/53-24
Encls. Encl Estimate in 1 copy

The Chairman, City Improvement Trust Board, Bangalore.

Date 21st October 1953.

23 OCT 1953

To

The Secretary to Government,
Local Self Government and Planning Departments,
Bangalore.

Sir.

Subject:- Water Supply to Sunkenahalli Extension.

I write to state that the Sunkenahalli Extension formed by the Board is fast developing and the residents of the area are agitating for supply of water. The Executive Engineer, Water Supply Division, has prepared an estimate amounting to Rs.72,000/- for providing water supply mains in the layout formed in S.No.33, of Sunkenahalli. Water is proposed to be supplied from 6,00,000 gallons - - capacity tank under construction at Mount Joy. In the revised sanctioned estimate of Sunkenahalli Extension a provision of Rs.50,000/- was provided for laying water supply mains in the layout. Now the estimate is revised to Rs.72,000/-. The increase in the estimate is due to the cost of the work for the feeder main to be laid from the Reservoir and also increase in the cost of the Cast Iron Pipes. The increase in estimate viz., Rs.22,000/- is proposed to be met out of the expected realisation by the sale of shop sites formed in this extension.

I request you kindly to obtain approval of Government for the revised estimate of Rs.72,000/- and communicate to me at an early date so that water supply work for this extension be taken up early.

The revised estimate of Rs.72,000/- as received from the Executive Engineer, Water Supply Division, is enclosed for reference and return.

Yours faithfully,

(R. Madhavan)
Chairman.

Ksr.

Report

2

The accompanying estimate amounting to Rs 72,000/- is for providing water Supply mains in the layout S.No.33 of Sunkenahalli village, Sunkenahalli Extension, Bangalore

The main source of Supply is 0.6 m.g. sump at Mount Joy. ~~It is proposed to lead 9" C.I. Main~~ ~~9" C.I. main is already laid upto the~~ Sunkenahalli Extension ~~It is proposed~~ and to lead 6" C.I pipes from the 9" C.I. main in the first main road upto the end of above extension and the distribution mains will be of minimum size of 3" and will be laid in all the crosses running east to west. ~~This~~ ~~Provision~~ ~~water~~ Supply ~~to~~ Existing Suitable ~~Village~~ The S P C rates for materials and the Schedule of rates for labour have been provided. The cost will have to be met by the Bangalore City Improvement Trust Board.

Yours

Executive Engineer,

W. Genl. 80] PUBLIC WORKS DEPARTMENT Water Supply DIVISION

OFFICE OF MUNICIPAL BRANCH, B.

The Chairman, City Improvement
Trust Board, Bangalore.

Date 5th February 1954.

1115

To

The Assistant Secretary to Government,
Local Self Government and Planning Departments,
Bangalore.

Sir,

Subject:- Water Supply to Sunkenahalli Extension.

With reference to your D.O.letter No.L.9301 dated 29-10-53 on the above subject, I write to state as follows:-

(a) Total cost of the scheme as per sanctioned estimate for the formation of layout is:-

1. Acquisition of lands as per per award bills passed	Rs.63956-0-0	
2. -do- yet to be passed.	" 6000-0-0	
3. Layout charges as per detailed estimates included.	80058-0-0	
4. Conversion fine on sites area only.	9375-0-0	
5. Water Supply charges as per estimate furnished by the Executive Engineer, Water Supply Division, Bangalore, vide his letter No.177 dated 3-5-1951.	50,000-0-0	
6. Under-ground drainage.	38,011-0-0	
Total Rs.	2,47,400-0-0	2,47,400-0-0

(b) 1. Amount so far realised from the sale of sites to end of December 1952. 2,08,570-0-0

2. Amount expected to be realised. 38,675-0-0

3. Number of sites sold. No.257.

2,47,400
30,600
2,78,000

As regards the actual cost of the feeder and distribution mains, I write to state that the cost of feeder mains are not usually included in the Trust Board estimates; hence no comparison with the previous estimates can be given. As per the estimate now sent to the Government the provision under materials, labour etc., are as follows:-

P.T.O.

follows:-

1. Materials for cost of 6" feeder main 4" and 3" sub-mains including specials etc.	Rs.52,000/-
2. Labour.	Rs.15,000/-
3. Temporary Establishment.	Rs. 1,300/-
4. Establishment, Tools and Plant charges.	Rs.12,294/-

The Superintending Engineer, Sanitary Circle, Bangalore, has in his D.O.letter No.3992 dated 22-12-53 stated that the correct amount of the estimate is Rs.80,595/- and not Rs.72,000/- as already sent to Government. A copy of his letter dated 22-12-53 is enclosed. A comparative Statement showing the difference between the sanctioned estimate and revised estimate is also enclosed.

It may also be stated that under the Corporation Act, Corporation has to provide water mains within 100 yards from the layout and it is a legitimate charge on the Corporation where the layouts are within the Corporation area. Where the layouts are beyond Corporation limits Government have to bear the cost of providing mains to the extensions formed by the Board.

The Public Works Department has charged and is charging 18% as Establishment and Tools and Plant - - Charges on the estimates. As already requested in this Office letter No.3987/53-4 dated 21-12-53 orders of Government to include this Trust Board in the list of local bodies which are entitled to a concession of centage charges at 12½% sanctioned in Government Order No.Fl(B) 10430-530/C.R.20-53-1 dated 4-11-53. If this rate is taken into consideration the revised cost will come to Rs.76,838-8-0.

Approval of Government to the Revised estimate

× This request has already been turned down — Vide letter WL 153/16/53-TB 103-53-2 dt 20-2-54 (Illegible)

estimate for the water supply to Sunkenahalli Extension as modified above may kindly be obtained and communicated early as the site owners who have built houses are agitating for immediate supply of water.

Yours faithfully,

(R. Madhavan)
Chairman.

Ksr.

Copy of D.O.letter No.3992 dated 22-12-1953 from the Superintending Engineer, Sanitary Circle, Bangalore, to the Chairman, City Improvement Trust Board, Bangalore.

****

Subject: Water Supply to Sunkenahalli Layout; in Survey No.33.

- - -

Adverting to your D.O.letter No.3982/53-54 dated 19th December 1953 regarding the above, I write to state that as intimated in My D.O. No.3729 dated 14-12-53, the correct amount of the estimate is Rs.80,595/- as against Rs.72,000/-. This correction in the total amount has to be noted and countersigned for this corrected amount.

As regards the actual cost of the feeder and distribution mains, I write to state that no estimate has been sanctioned and as per your requisition from time to time, the estimates have been modified. Hence no comparision with the previous estimates can be given. As per the estimate now sent to you the provisions under materials, labour etc., are as follows:-

1. Materials for cost of 6" feeder main 4" and 3" sub-mains including specials etc.		
a) Cost of 6" feeder main	Rs.13,406/-@	Rs. 52,000/-
b) Cost of 4" & 3" sub-mains	Rs.38,595/-@	
2. Labour.		
a) for 6" feeder main.	Rs. 2,730/-@	Rs. 15,000/-
b) for 4" and 3" main.	Rs.12,270/-@	
3. Temporary Establishment etc.,	Rs	Rs. 1,300/-
4. E.T.P. charges etc.		Rs. 12,294/-
	Total =	Rs. 80,595/-

In view of urgency to provide water supply to the houses already built, I request you to kindly countersign the estimate and forward the estimate to Executive Engineer, Water Supply Division for taking further action.
